

## High Performance TM9E Furnace

Delivering Comfort. On every level. ClimateCare's TM9E Gas Furnace is ready to keep your home comfortable with high-performance efficiency along with a host of state-of-the-art features.

- **High Efficiency Motor**  
X-13 High Efficiency DC motor reduces electrical costs, significantly increases air conditioner efficiencies and varies air handling for quieter operation.
- **Computerized Board**  
Equipped with a Computerized Control Board offering High-Level Self-Diagnostic and Fault Codes for easy servicing.
- **Condensate System**  
Condensate management system eliminates the need for external condensate traps and provides easy unit operation.
- **Compact Design**  
Compact Multi-Position 33" height design to fit all applications (Upflow/Horizontal Right/Horizontal Left/ Downflow).
- **Access Features**  
TM9E features include a fully supported, slide-out blower assembly for easy service access and fully gasketed, independent access doors with view ports for quiet operation.
